

Study Skills Homework

Name: _____ Date: _____

You have the choice to do one of four for you teacher. as your homework from POP once a week. Please have your parent/Guardian sign the bottom of the sheet so that you will get credit for your work.

I will be giving you homework to help you study for your regular class tests and assignments.

Pick one to do as your homework from POP.

- 1. Type 8-10 of your hardest spelling words on the computer. Please try to keep your hands relaxed on the keys and in correct position. Try to use only those fingers nearest the letter to type it in. Hand in your printed page.**
- 2. Read for 15 minutes, using the book you are reading for your book report. List on the spaces below, any words you had trouble reading.**

- 3. If you have to study for a test, look through the chapter and use the back of this homework page to help you write out the key things to remember or study on. I will xerox this for you, so you can study from it.**
- 4. Study your Bible Verse for the week. Sometimes it is easier if you take a picture in your mind of a part of it, and memorize only that first part. Then after a few days, try to memorize the first part with the second part. Etc... You can do this by being creative. (For example: use hand motions and movements to sequence the verse into steps, create a song, use drawings for each part and memorize the drawing to the verse.)**
